

Zurn PEX[®] QickCap[®]

Copper Crimp Ring System

The QickCap[®] Copper Crimp Ring with Positioning Cap accurately positions the crimp ring on tubing to ensure proper installation. The QickCap simplifies installation of the crimp ring onto the tube, easing installation even in tight spaces. It can be used for both hot and cold water distribution plumbing systems.

Labor Saving

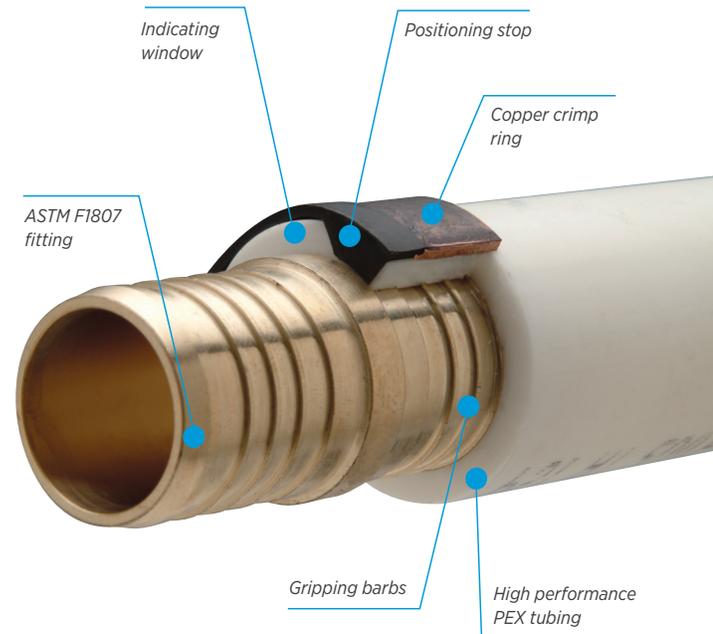

- Durable polymer QickCap properly aligns crimp ring, tubing, and fitting
- Positioning stop virtually eliminates ring movement during installation
- Indicator window provides visual confirmation tubing is fully inserted

Proven

- Reliable copper crimp ring creates 360 degree seal for leak-free connections
- Dependable ASTM F1807 fitting system meets plumbing and heating code requirements

Versatility

- Broad 1/2"-2" size range covers residential and commercial applications
