

20XL Zurn Wilkins Pressure Reducing Valve

Compact Design, Universal Connections

Every valve installation presents its own challenges, whether it's a complex environment, system intricacies, or current and emerging codes. The 20XL Pressure Reducing Valve is compact to fit within any application and versatile to work with nearly every end connection. It blends new technologies with proven parts and meets both customer standards and compliance.

Compact Dimensions

With a short lay length and smaller design, the 20XL Pressure Reducing Valve installs no problem, making it ideal for tight spaces or retrofits. Its universal connection options ease installation time and minimize the potential for leaks. Available in 3/4" and 1" sizes, the 20XL connection options include threaded, copper sweat, integral expansion PEX and integral crimp PEX.

Consistent Performance

Performance starts with the engineering, and lasts with a durable construction. The 20XL achieves both. Its composite cartridge and bell housing deliver superior strength and corrosion resistance. It features a similar internal cartridge as trusted models before. The integral strainer stops debris and threaded bell speeds access to the cartridge. What's more, the cartridge loaded design makes it easy to maintain and repair.

Compliant Solution

When it comes to current or emerging compliance, the last thing you have time for is concern. The 20XL meets the requirements of NSF/ANSI 61. It's ASSE Listed 1003, IAPMO Listed, and CSA Certified. It's manufactured for the most rigorous environments and regulations, so your customers won't worry about being compliant down the road either.

20XL Pressure Reducing Valve

3/4"	1"	CONNECTION/TAILPIECE OPTIONS	SUFFIX
		Single Union FNPT x FNPT	20XL
		Single Union Copper Sweat x FNPT	20XLC
		Double Union FNPT x FNPT <i>*Also available with two integral FNPT connections (no unions) - 20XLDULU</i>	20XLDU*
		Double Union Copper Sweat x Copper Sweat	20XLDUC
		Integral F1960 Expansion PEX x Expansion PEX	20XLEPEX
		Integral Crimp PEX x Crimp PEX	20XLPEX

Accessories

PART NUMBER	DESCRIPTION	SIZE
RK34-1-20XL	Repair Kit (all end connection types)	3/4" and 1"
RFK34-70DU-20XL	Retrofit kit 70DU/70XLDU to 20XL	3/4"
RFK34-NR3-20XL	Retrofit Kit NR3/NR3DU, NR3XL/NR3XLDU, BR4 to 20XL	3/4"
RFK1-NR3-20XL	Retrofit Kit NR3/NR3DU, NR3XL/NR3XLDU, BR4 to 20XL	1"
RFK34-70-20XL	Retrofit Kit 70/70DU, 70XL/70CLDU to 20XL	3/4"
