

Connected Battery ZTR Series Sensor Flush Valve

Upgrade to a Smart Restroom, From Install to Insights

Today, your restroom comes under scrutiny more than any other space in your building. Be confident in your environment and the user experience.

Zurn Connected Flush Valves, powered by plumbSMART™, combine touchless sensors and IoT technology to keep hands off fixtures and staff on task. What's more? It's easy to install. Connect your plumbing to save costs, stay ahead of cleaning and maintenance, and satisfy guests.

Reduce Germs and Concern

- Upgrade to touchless technologies
- Promote hand hygiene and health
- Meet CDC guidelines

Reduce Maintenance Costs

- Order parts based on usage
- View automated maintenance calendar
- Schedule repairs and cleaning around usage
- Optimize resources and costs

Reduce Water Consumption

- Review water consumption trends
- Discover ways to cut back
- Detect issues in real time
- Prove LEED points with data

Reduce Operational Stressors

- Monitor performance 24/7
- Set alert parameters and permissions
- Pinpoint peak usage and hours

Connect a Better Experience

- Keep toilets working and staff on task
- Create a cleaner, smarter restroom
- Leave a positive user impression

Connected Battery ZTR Series Sensor Flush Valve

Rough-In Dimensions/Overview Dimensions

Includes four AA batteries with a 3-year life.

CLOSET: ZTR6200-W2

URINAL: ZTR6203-W2

CLOSET FLOW RATES	
-ONE	1.1 gpf [4.1 Lpf]
-EV	1.28 gpf [4.8 Lpf]
-WS1	1.6 gpf [6.1 Lpf]
-DF	1.6/1.1 gpf [6.1/4.1 Lpf]

URINAL FLOW RATES	
-ULF	0.125 gpf [0.47 Lpf]
-QRT	0.25 gpf [1.0 Lpf]
-EWS	0.5 gpf [1.9 Lpf]
-WS1	1.0 gpf [3.8 Lpf]

Zurn Gateway

GATEWAY MODEL NUMBERS	
-LTE	ZGW-LORA-W1-LTE
-Ethernet	ZGW-LORA-W1-ETH

How It Works

Using sensors, Zurn Connected Flush Valves monitor performance and offer insights by gathering data, such as activations and water usage. The data collected gets communicated from the sensor to the Zurn Gateway. From there, the LAN or LTE* connection transports the product data to a secure Zurn Cloud. The secure Zurn Cloud analyzes your data to deliver real-time insights to plumbSMART**.

Facilities managers and maintenance personnel can receive alerts via email, text and/or push notifications based on their customizable parameters and permissions. The portal also reveals patterns and trends to allow for a deeper dive.

Install the Zurn Gateway within 1,000 feet from the connected product. Register the connected product in plumbSMART. The Zurn Gateway and plumbSMART can support your entire Zurn Connected Products portfolio.

*LTE charges will apply to basic plans

**plumbSMART is free-to-connect to a basic plan with an option to upgrade to a premium plan
