

Sundara® Surf Handwashing System

Bring Distinction to the Commercial Space

Influenced by architects and crafted by audacious industrial designers, we've unified seamless countertops, basins, faucets, and soap dispensers for a modern concept that elevates the restroom experience. Behold the balance of brawn, brains and beauty.

BRAWN

The Strength of Simplicity

Sundara's performance stems from Zurn One: a system that streamlines the restroom ecosystem through a single-source manufacturer. Because Zurn develops all of Sundara's fixture components, we are able to reduce installation time, increase effectiveness, and maintain reliability.

BRAINS

More Input for a Better Output

Sundara is the culmination of more than 10,000 research hours, 150 architect interviews, and 26 trial prototypes. We asked questions, learned lessons, and put that knowledge to work. The result? The most user-friendly, design-forward hand washing product on the market today.

BEAUTY

Reimagining the Restroom

Sundara enables designers to breathe new life into a space that is often overlooked. Its modern lines, minimalistic drains, fashionable faucets, sophisticated soap dispensers, and refined ergonomic features deliver charming – yet useful – touches.

Bold, yet effortless, Sundara Surf takes on the restroom design with sloping lines and a wide basin. It gives users personal space and operates with the wave of a hand. Pairs with our stainless steel shrouds to conceal the plumbing and complete the look.

Decisions of Distinction

The Sundara handwashing system reinvents the commercial restroom space with a selection of innovative designs combinable with a curated selection of sensor faucets and soap dispensers. There are plenty of options available – seven colors, two finish options – that allow you to create your own look.
