

# Zurn Wilkins 900XL3 Winterization Tool

Winterize irrigation lines quickly and easily

With sizes to fit the entire 950XL3 and 975XL3 backflow preventer series, the Zurn Wilkins 900XL3 Winterization Tool provides contractors with the quickest way to blow out irrigation lines downstream of the backflow.

## Leading Performance

- **Innovative design** makes it quick and easy to blow out irrigation lines downstream of the backflow
- **Prevents damage** from water expansion due to freezing

## Save Time

- **Reduces time** and cost for winterizing irrigation lines
- **Fitted seal** holds tool in place for faster line clearing

## Range of Sizes

- **Available for all 900XL3 variations**, with sizes to fit the 950XL3 and 975XL3 backflow preventer series
- **Compatible with irrigation systems** where winterization is required
