

# AquaSense<sup>®</sup> Sensor Faucets

More Reliable, More Sustainable

Create a more hygienic, sustainable and reliable restroom experience. AquaSense sensor faucets have a gear-driven ceramic cartridge with no solenoids to replace, which means less maintenance and fewer repairs.

The standard high efficiency, low-flow rate and 30-second timeout help save water, and Hydro•X Power<sup>®</sup> technology option offers renewable hydropower, which saves on batteries and waste. With this winning combination of options, these faucets help meet sustainability goals – and they last the life of a commercial restroom.

Customize usage settings using Zurn Elkay's Bluetooth app. Upgrade to the smart device version for fleet management, including real-time data for remote monitoring and usage insights to your connected plumbing ecosystem.

## Reliable, Sustainable Performance

Hydro•X Power<sup>®</sup> technology delivers reliable performance by providing renewable, uninterrupted hydropower designed to last the life expectancy of a commercial restroom.

## Low Maintenance

Uses EZ Gear technology, a solenoid-free, gear-driven ceramic cartridge that is less susceptible to debris and buildup for less maintenance. It outlasts and outperforms solenoids.

## High-Efficiency Design

Maximize power without impacting flow volume. High-efficiency design delivers consistent flow volumes from 0.35 to 1.5 gpm and above.

## Customizable Features

Prevent overflow and water waste with metering mode and timeout configurations. Bluetooth app allows easy customization of line flushing and sensor range to accommodate your restroom.

## Quiet

Quiet water flow and soft-close technology that eliminates water hammer.

# AquaSense Sensor Faucets

## Hydro-X Power

Hydro-X Power® technology option delivers sustainable performance by providing renewable, uninterrupted hydropower designed to last the life expectancy of a commercial restroom.

## EZ Gear Technology

Uses EZ Gear technology, a gear-driven ceramic cartridge that is less susceptible to debris and buildup for easy maintenance; outlasts and outperforms solenoids.

## AquaSense Sensor Faucets

Our AquaSense Sensor Faucets offer sleek style and fashionable functionality with adjustable features and vandal-resistant construction that stand up to demanding environments. Low-flow rates meet WaterSense® or CEC compliance to help your water-saving goals.

### Power Supply Choices:

- Hydropower
- Hardwire
- Plug-in

### Accessories:

- **-CP4** Cover plate 4" centers
- **-CP8** Cover plate 8" centers
- **-MV** Temperature mixing hose
- **-SH** Supply hoses for mixing valve
- **-TMV** Thermostatic mixing valve for multiple faucets
- **-TMV-1** Thermostatic mixing valve for single faucets

### Finish Options:

- Polished Chrome
- Brushed Nickel
