

SENSOR FAUCETS

Touchless Solutions that Streamline a Space

by Zurn Elkay Water Solutions

GET INSPIRED

Form meets function to transform your customers' environment.
Choose from our sleek selection of Zurn sensor faucets.

Every project starts with that 'something'. A spark for how it should look and how it should function.

Our Zurn Sensor Faucet line draws from your customers' environments, so you can be inspired by their demands, not siloed into a design.

Choose from a variety of forms and finishes, knowing each faucet has the same dependable features across the product line. They're ADA compliant and constructed with durable brass bodies with low-flow options to meet WaterSense® standards.

Before you select a faucet, get a better sense...

A SENSE FOR MODERN LINES

The Camaya touchless sensor faucet delivers a superior user experience that appeals to the modern eye without losing its luster or performance.

Updated power options (hydro, plug in, hardwired) all with gear-driven ceramic cartridge.

A SENSE FOR INNOVATION

Faucets with Hydro•X Power and EZ gear technology pair perfectly with our Hydro•X Powered flush valves to make a complete, sustainable restroom.

Reliable, Sustainable Performance

Hydro•X Power® technology delivers sustainable performance by providing renewable, uninterrupted hydropower designed to last the life expectancy of a commercial restroom.

Low Maintenance

Uses EZ gear technology, a solenoid-free, gear-driven ceramic cartridge that is less susceptible to debris and buildup for less maintenance. It outlasts and outperforms solenoids.

A SENSE FOR AN INVITING SPACE

Refine your restroom with Nachi. The wall-mount design commands the space without monopolizing it. It's easy on the eyes and even easier to maintain.
